The components present in the
product meet the criteria of
biodegradability established in
the Regulation (EC) No.
648/2004 on detergents.

The company is not responsible
for conditions of use of product
out of specification. We decline
any type of responsibility for a
incorrect use of the product.

DATA SHEET

Product specifications:

PH: 1-2 (1%)

Density: 1.355 - 1.365 g/cm³

Color: colorless

Appearance: Transparent liquid

Qualitative formula:

> 30%

DESCRIPTIVE MEMORY

Low foam concentrated descaling cleaner, suitable for the removal of limestone inlays and other dirt attached to machinery, closed circuits and other surfaces in the food industry. Its high wetting power allows it to easily penetrate all gaps, performing rapid cleaning on both smooth and rough surfaces. It does not affect non-metallic surfaces such as plastics and rubbers.

HOW TO USE

The product is applied diluted in water from 0.5 to 2%, depending on the existing limestone remains or the type of surface. Close product admissions before cleaning. Circulate the mixture through the ducts several times. Finally, rinse with drinking water throughout the circuit. Perform this operation on a regular basis, in order to avoid obstructions in the circuits or the decrease in their transport efficiency.

SECURITY ADVICE

Word of warning: Danger

H-PHRASES

H314 - Causes severe skin burns and eye damage.

Q-PHRASES

P260 - Do not breathe dust/fume/gas/mist/vapours/spray.

P264 - Wash ... thoroughly after handling.

P280 - Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/...
