out of specification. We decline
any type of responsibility for a
incorrect use of the product.

DATA SHEET

Product specifications:

PH: 12-13 (1%)

Density: 1.235 - 1.245 g/cm³

Color: Yellow

Appearance: Transparent liquid

Qualitative formula:

DESCRIPTIVE MEMORY

Low foam alkaline detergent with stabilized chlorine, for the elimination of grease and dirt in all types of cleaning in CIP, surfaces and washable utensils, existing in the food industry. It also provides a sanitizing and deodorizing effect, since it prevents the formation of bad odors produced by decomposition, putrefaction and fermentation of organic matter.

HOW TO USE

DETER CL is used diluted in water from 0.5 to 1%. In extreme dirt conditions use the pure product. The dilution obtained can be applied in various ways: spray, soaking, manual scrubbing, CIP, etc. and always in the absence of food. Leave the product to act for 5 minutes and then rinse the surfaces and utensils with plenty of water.
